For a complete list and details of what AFFCF can consider funding, please visit: affcf.org/general-awards/general-award-guidelines/

To receive funding, all requests must go through AFFCF’s application process. Anyone can submit an application on behalf of a child in foster care. Visit affcf.org/apply to access the application. The application does ask for the contact information of the child’s DCS or Tribal caseworker, as we must verify the child’s current status as a ward of the court in foster care in Arizona. Applicants must also provide supporting documentation that displays exactly what is being requested and the exact cost of the request. FosterClub connects young people from foster care with unique tools and programs, and engages young people to transform life for themselves, their peers, and to ultimately improve the child welfare system. The national organization delivers services and programs in these key areas: developing young leaders, training (for youth and for foster parents), outreach, public policy and public awareness. FosterClub’s notable programs include the following:

**All-Star Internship**
Every summer, 20 - 25 young people from the foster care system will receive intensive leadership and public speaking training and then sent to teen conferences and foster care-related events across the country. In addition to motivating, educating and empowering foster youth across America, the FosterClub All-Stars will raise awareness about the 400,000 children in foster care today and the 29,000 youth who transition from foster care every year, mostly without the support of a permanent and stable family.

**Congressional Foster Youth Shadow Experience**
This opportunity brings foster youth and policymakers to the same table. Over the course of three days, participants attend young leader training focusing on federal foster care policy, strategic sharing and team-building exercises. The program concludes with the foster youth participants shadowing congressional members, allowing them to share their #FosterYouthVoices to give the representative a well-rounded understanding of the experiences of youth in foster care, which will help as they pursue policies that impact all foster youth.

Hope and a Future is an Arizona 501(c)(3) nonprofit Christian organization that provides the following services to children in foster care:

Royal Family Kids Camp
Royal Family Kids Camp is an unforgettable week of summer camp for children, 7 to 11 years of age, who live the rest of the year in group homes or foster homes. The children create powerful and positive memories to keep them “going and growing” until they return the next summer for another great week at camp. A trusted camp cousin has charge of just two campers and each camper also has a surrogate grandma and grandpa, as well as a large support staff of aunts and uncles. The ratio of staff-to-campers is high to ensure success and safety. During the week there is a birthday bash with cake, games and presents to celebrate each child’s birthday. A background check is conducted on every volunteer who also receive intensive training to
manage any behavioral or emotional issues. Medical personnel are also available to administer first aid and medication. All campers are afforded complete confidentiality, which means no promotional pictures or unauthorized cameras. However, staff will take pictures as keepsakes for the children and the children receive a camp scrapbook with the pictures at the end of camp.

Teen Reach Adventure Camp (TRAC)
TRAC is a positive, faith-based summer camp experience that offers hope and encouragement to foster children who are 12 to 15 years old that may have suffered abuse, neglect or abandonment. The camp is specifically designed to ensure the success of every foster child who attends camp. Each three-day camp provides a unique ratio of one counselor to every two children, and each camp is single-gender to promote a greater level of comfort between staff and attendees. Through quality time with each child and encouragement, each child leaves camp with a positive outlook on life. Campers will experience outdoor activities, hiking, archery, zipline, fishing, canoes and participate in a low-level challenge course that helps them recognize the importance of self-respect, teamwork and communication while having fun!

Life 360
Life 360 is a year-round life skills mentoring program for Arizona foster children who are at least 15 years old and builds on the successful relationships established during our summer camp programs (however, there is no requirement that participants have gone to camp). The program focuses on basic skills like money management, household management, planning for college, budgeting, interviewing for jobs, job skills, nutrition and meal planning. This program is primarily for Maricopa County.

John S. Brewer Memorial Scholarship Fund
Created to help any foster child through ongoing educational assistance, career training and college scholarships, the John S. Brewer Memorial Scholarship Fund provides assistance for high school tutoring, vocational training, college tuition and housing assistance while in college. The application can be found online at azhope.com/scholarship-application/

Annual Christmas Celebration
Hope and a Future throws a festive gathering for children who attend Hope and a Future programs, their foster families and organization volunteers. The celebration includes a catered dinner for those in attendance, arts and crafts for the children, holiday desserts and gifts for each child. The gifts include appropriate age-specific toys and new articles of clothing for each child. Since 2005, HF has invited all children who’ve ever taken part in HF programs, their foster families and their group homes. This program takes place in Maricopa County.

Prevent Child Abuse Arizona is shifting the public conversation about child maltreatment so that prevention is the priority. PCA Arizona provides training, parenting education and prevention services to families, foster parents, child welfare professionals, social service providers, law enforcement, court personnel and the public.

Best for Babies: Cj James | Email: cj@pcaaz.org
This program provides both training and support to court and DCS personnel in establishing best practices for dealing with foster children ages 0-3 years. Issues addressed include prenatal exposure to maternal substance abuse and low birth weight, which are associated with an increased likelihood of behavioral problems, chronic health conditions and developmental delays. The goals of Best for Babies are: (1) to increase shared knowledge of the unique needs of maltreated infants and toddlers; and (2) to increase community collaboration in the child welfare system to improve outcomes. A particular concern is that the unique and immediate needs of infants and toddlers in the child welfare system are often overlooked, since the focus of ongoing services is likely to be the more visible legal and mental health issues of their birth parents.

Never Shake a Baby: Beth Eggers-Sedlet | Email: beth978@cox.net
This program is an evidence-based program aimed at providing parents information and skills to prevent shaken baby syndrome (SBS). NSBAZ is available throughout the state to all parents who have just given birth. The NSBAZ program is offered by the nurse to new parents just prior to discharge with their newborn. Parents who voluntarily participate are given a tip sheet on how to handle a crying infant, watch a video on shaken baby syndrome and are asked to sign a commitment form that states that they were educated on the dangers of shaking babies. They also make a plan to handle their crying child and inform all who take care of their child about their plan and about SBS.

Triple P Positive Parenting Program©: Cricket Mitchell | Email: triplep@pcaaz.org
The Triple P - Positive Parenting Program© is one of the world’s most effective parenting programs. Triple P works by giving parents the skills to raise confident, healthy children and teenagers and to build stronger family relationships. It also helps parents manage misbehavior and prevent child rearing problems occurring in the first place. Triple builds upon parents’ existing strength and teaches them simple and practical strategies they can adapt to suit their own values, beliefs and needs.

Executive Director: Linda Hollis, Ph.D.

As part of the Arizona Partnership for Children, Catholic Community Services of Southern Arizona recruits and prepares families to welcome children into their homes and care for them. They offer ongoing supportive services to enhance the foster family experience, as well as medically complex training for families wishing to foster infants/children who need a higher level of care. CCS’s foster care specialists are always on call to help place children and respond to foster families. The greatest need is for foster families who will care for sibling groups and children age 4 and older - especially teens. They also work with non-relative and relative foster homes.

They coordinate a radio-thon to raise money each year. They bought loaner car seats for CASAs. They can give winter coats, tutoring, bikes, etc. and they seldom turn a request down.

NOTE: Friends of CASA (the former CASA support council in Payson) no longer exists and has turned over its assets to Rim Country Arizonans for Children. The Globe-area CASA support council called “Gila Council for Kids” is also apparently now defunct.

Child Crisis Arizona provides emergency shelter, foster care, adoption, counseling, early education, home visitation and parenting support services to Arizona’s most vulnerable children and families. Child Crisis Arizona’s mission is to provide Arizona’s children a safe environment, free from abuse and neglect, by creating strong and successful families. The services/programs offered include:

*Emergency Children’s Shelter*
Child Crisis Arizona operates the only licensed Emergency Children’s Shelter facility for children age birth through 10 in Maricopa County. The shelter is open 24 hours a day, 7 days a week, year-round. Children are placed in the shelter through referrals from the Arizona Department of Child Safety and Tribal Social Services, and by community members who for whatever reason may not be able to provide care for their child and need a safe place temporarily. More than just a place to sleep, Child Crisis Arizona’s home-like shelter meets all of a child’s needs. Specially trained staff and volunteers provide help, comfort, care and support. Children in the shelter receive:

- Nurturing care 24 hours a day, 7 days a week
- Balanced meals and healthy snacks
- Clothing and personal care items
- Medical screenings and attention to health issues, including vaccinations and visits to the doctor and dentists as needed
- Educational support and counseling

While kids are at the shelter, they participate in activities like art, music, dancing and swimming lessons, as well as visits from therapy dogs. Through the generosity of our donors and community partners, children at the shelter and in our foster and adoption programs may also attend field trips to museums, cultural events, attractions and family-friendly activities

*Foster Care and Adoption Services*
Child Crisis Arizona’s Foster Care and Adoption program is committed to helping children in out-of-home care by licensing and certifying parents for foster care and adoption. Child Crisis Arizona provides extensive support to foster care and adoption families and is proud of the low disruption rate. Child Crisis Arizona offers a combination of services and support, along with realistic training, to prepare families for placement of children of all ages and backgrounds.

*Early Education Services*
Child Crisis Arizona operates Early Head Start programs in Phoenix and Mesa, with family support specialists work with participating families through prenatal, home-based and center-based visits. Maricopa County Head Start also operates a head start program at their Mesa location. Child Crisis also operates an award-winning preschool program for children ages three to five who live in Phoenix’s Garfield neighborhood. Family support specialists provide guidance to the entire family through parent education classes, family activities and referrals to community resources offered by Child Crisis Arizona’s community partners.
CHILD CRISIS ARIZONA (cont.)

Counseling
Child Crisis Arizona runs a licensed children’s counseling center. Counselors work with children who have experienced a variety of challenges, including trauma and attachment. Child Crisis Arizona provides and refers various resources to families in need. We also provide information to obtain financial assistance from the state in order to relieve some of the stress of caring for kids. Counseling services are available through referral only. In addition to counseling, they host monthly support groups and parenting classes for Relatives As Parents (RAP). Classes help and support relative-caretakers with parenting duties, social and developmental issues in children and managing the daily responsibilities of relative care. Monthly legal guardianship clinics are available to help relative caretakers gain legal guardianship of related children.

Home Visitation Services
In-home support for families referred by the State of Arizona Department of Child Services (DCS). Child Crisis Arizona’s Family Preservation Services intervention program focuses on improving the safety and well-being of families, and allows children to remain safely in their homes.

Parenting Classes and Workshops
The Family Education Program offers workshops, classes, support groups, legal clinics and family-friendly activities. All these programs center around teaching positive parenting skills that build strong families. FREE ARTS OF ARIZONA (cont.)

Weekly Mentor
This program pairs adult volunteer mentors with groups of children from one of Free Arts’ partner child social service agencies for weekly, hour-long art sessions. Using our mindfully-crafted arts curriculum, mentors help children begin to process their trauma, build trusting relationships and freely express themselves. Mentors are trained in youth development and therapeutic art techniques, as well as provide resources and best practices to encourage strength-based communication and empowerment.

Professional Artist Series
Free Arts commissions professional artists to teach children specific art skills and introduce them to career opportunities in the arts. Past workshops have covered a range of topics and mediums including dancing, acting, creative writing, painting, welding, drumming, photography and more. Artists lead sessions designed to teach transferable art, social, and coping skills. Most series conclude with a public exhibit or performance. These opportunities to develop and showcase skills vastly improve children’s self-esteem.

Free Arts Days
Free Arts Days connect children to their community by creating meaningful, one-day, creative programs in collaboration with local arts and culture organizations, including Ballet Arizona, Children’s Museum of Phoenix, Desert Botanical Garden, Herberger Theater Center, Phoenix Art Museum, The Phoenix Symphony and Scottsdale Center for the Performing Arts. Children of all ages come together from different shelters and foster care group homes to participate in Free Arts Days. Surrounded by caring volunteers in a community setting, children experience a sense of connection, value and self-worth.

Camp Series
Free Arts offers three different camp experiences. Through the program, children explore various art forms with the guidance of professional teaching artists, experienced staff and caring volunteers. Each week-long, therapeutically-intense art camp concludes with a final performance where participants share their art with the public.

Youth Leadership and Alumni
The Youth Leadership Team provides a safe space for program participants to continue to access Free Arts and connect to each other, even after they leave the foster care or shelter system. These young adults continue to build the skills needed to increase self-efficacy and resilience.

- STEP
  This program provides transitional housing for at-risk foster teens/young adults. GAP’s mobile kitchen/food truck allows GAP to take food into needy neighborhoods. Groups may use GAP’s Diner and high-tech conference room, including catering, for a low cost. The Food Truck may also be available for catered events when not in use serving community needs.

- One Life Internship
  This program offers three tracks to choose from: ministry school course track (to become a minister), education course track
GAP MINISTRIES (cont.)

(specialized training in social services) or vocational course track (certificates of proficiency in culinary arts, auto mechanics, janitorial/housekeeping, warehouse, general maintenance). Students earn money for each certificate of completion earned.

GAP keeps a small store stocked with clothing that is both purchased and donated to help meet the needs of the children in its care. GAP also makes available to those in need small household appliances, bedding, cleaning supplies, paper goods, and other items to set up and maintain a household. Some items are donated and some are purchased at a discounted price from partnering retailers.

Additional services not directed to foster children: BOOST (Building Overflow out of Serving Together) provides food to partnering agencies who then gave to the community in need. GAP also provided its partners with over $100,000 worth of household items and products. GAP has a food pantry to meet the needs of the children in our SPLASH Houses, and when there is an overflow, that food is used in the BOOST program.

Yavapai County

YAVAPAI CASA FOR KIDS FOUNDATION (cont.)

Yavapai CASA for Kids Foundation (YC4KF) is the Prescott-area Yavapai County CASA support council. In addition to funding the unmet needs of children in foster care in Yavapai County, the Foundation has expanded to include many other types of services such as a family visitation center, training, and transportation expenses for CASAs. Their programs include:

Adoption Mailbox Exchange
YC4KF operates a mailbox for confidential letter and gift exchanges between adoptive and birth families (when approved by the Court and when both the birth and the adoptive families agree to participate). The mailbox ensures that the birth family can receive news about their children who have been adopted in a way that respects the confidentiality of all parties.

Celebration Cards
YC4KF provides celebration cards – gift cards from local stores that are given to children in foster care when they experience a milestone, such as a birthday, improving grades in school, getting along better in the foster home, not wetting the bed for a week, or sleeping through the night in their own bed, in order to provide much-needed positive reinforcement.

Christmas Gifts
The Foundation coordinates holiday gift trees to collect holiday gifts for children in foster care at a number of retailers in their area. A list can be found on the group’s website.

Clothing Initiative
YC4KF’s Clothing Initiative ensures every child in foster care under the Prescott Courts has adequate and appropriate clothing through two programs. Through the Emergency Clothing fund, they provide DCS funds so children can be properly clothed immediately upon removal from the parents. To make sure every kid in care has adequate clothing, Yavapai CASA for Kids Foundation provides a bi-annual clothing supplement for all youth in foster care under the jurisdiction of the Prescott Courts.

Family Visitation Center
YC4KF provides a clean, safe and child-friendly environment for biological parents and their children in foster care to have supervised visits.

Grants
YC4KF provides grants of goods and services through their application form available online at their website. Their form specifically asks if the applicant has first applied to AFFCF. Anyone involved in the life of a foster child can apply.

The Yuma Council for CASA meets regularly throughout the year. They hold their annual fundraiser in March and host smaller fundraisers as opportunities arise. The Yuma Council focuses on funding activities for kids directly, such as summer camps, tutoring, speech therapy (the local schools provide only 15 minutes per month, in a group setting), prescription sports goggles, equine therapy and especially regular use clothing. They seldom purchase electronics. The Council asks CASAs to go through AFFCF first before applying to the Council.
